Always Environmentally Friendly

Our wish is to create a naturally beautiful wooded area where pets' and their owner's ashes can be buried together in a reserved plot.

The Spinney and Meadow Wood can be visited at any time during the day.

Please reserve your plot by visiting our office.

We do kindly ask that only meadow flowers and woodland bulbs are planted in this area. No vases or edgings may be placed by the grave and all artifacts will have to be removed.

Bouquets of flowers are most welcome. Headstones and wooden benches are to be purchased from the company.

The Ground is not consecrated but individual plots may be blessed if required.
